Mathematics A – 1387

Paper 6 (Calculator)

Higher Tier

Monday 12 June 2006 – Morning

Time: 2 hours

Examiner's use only

--	--	--

Team Leader's use only

--	--	--

**Materials required for examination**

Ruler graduated in centimetres and millimetres, protractor, compasses, pen, HB pencil, eraser, calculator. Tracing paper may be used.

**Items included with question papers**

Nil

**Instructions to Candidates**

In the boxes above, write your centre number, candidate number, your surname, initials and signature. Check that you have the correct question paper. Answer ALL the questions in the spaces provided in this question paper. **You must NOT write on the formulae page. Anything you write on the formulae page will gain NO credit.** If you need more space to complete your answer to any question, use additional answer sheets.

**Information for Candidates**

The marks for individual questions and the parts of questions are shown in round brackets: e.g. (2). There are 24 questions in this question paper. The total mark for this paper is 100. There are 24 pages in this question paper. Any blank pages are indicated. **Calculators may be used.** If your calculator does not have a  $\pi$  button, take the value of  $\pi$  to be 3.142 unless the question instructs otherwise.

**Advice to Candidates**

Show all stages in any calculations. Work steadily through the paper. Do not spend too long on one question. If you cannot answer a question, leave it and attempt the next one. Return at the end to those you have left out.

GCSE Mathematics 1387/8

Formulae: Higher Tier

**You must not write on this formulae page.**  
**Anything you write on this formulae page will gain NO credit.**

**Volume of a prism** = area of cross section  $\times$  length

**Volume of sphere** =  $\frac{4}{3}\pi r^3$

**Surface area of sphere** =  $4\pi r^2$

**Volume of cone** =  $\frac{1}{3}\pi r^2 h$

**Curved surface area of cone** =  $\pi r l$

**In any triangle ABC**

**Sine Rule**  $\frac{a}{\sin A} = \frac{b}{\sin B} = \frac{c}{\sin C}$

**Cosine Rule**  $a^2 = b^2 + c^2 - 2bc \cos A$

**Area of triangle** =  $\frac{1}{2}ab \sin C$

**The Quadratic Equation**

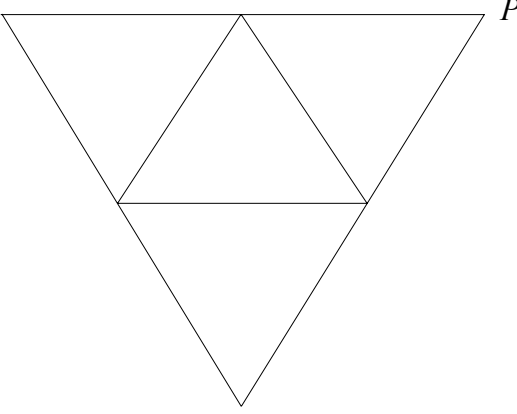

The solutions of  $ax^2 + bx + c = 0$

where  $a \neq 0$ , are given by

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

<p style="text-align: center;"><b>Answer ALL TWENTY FOUR questions.</b></p> <p style="text-align: center;"><b>Write your answers in the spaces provided.</b></p> <p style="text-align: center;"><b>You must write down all stages in your working.</b></p> <p>1. Here is the net of a 3-D shape.</p> <div style="text-align: center;"></div> <p>The net is folded to make the 3-D shape. Two other vertices meet at <i>P</i>.</p> <p>Mark each of these vertices with the letter <i>P</i>.</p> <p style="text-align: right;"><b>(Total 2 marks)</b></p>	<p>Leave blank</p> <p><b>Q1</b></p> <div style="border: 1px solid black; height: 20px; width: 15px; margin: 0 auto;"></div>
<p>2. Amy, Beth and Colin share 36 sweets in the ratio 2 : 3 : 4</p> <p>Work out the number of sweets that each of them receives.</p> <div style="text-align: right; margin-top: 200px;"><p>Amy ..... sweets</p><p>Beth ..... sweets</p><p>Colin ..... sweets</p><p><b>(Total 3 marks)</b></p></div>	<p><b>Q2</b></p> <div style="border: 1px solid black; height: 20px; width: 15px; margin: 0 auto;"></div>

$ABC$  is a triangle.

$AB = 8\text{ cm}$ .

$AC = 6\text{ cm}$ .

$BC = 10\text{ cm}$ .

- (a) Use ruler and compasses to construct an accurate drawing of triangle  $ABC$ .  
The line  $BC$  has been drawn for you.  
You must show all your construction lines.

$B$  \_\_\_\_\_  $C$

(2)

(b) Use ruler and compasses to construct the perpendicular bisector of the line  $PQ$ .  
You must show all your construction lines.

$P$  \_\_\_\_\_  $Q$

Leave  
blank
